

HERCUWALL®

The panelized shell and demising wall system.

Product Overview

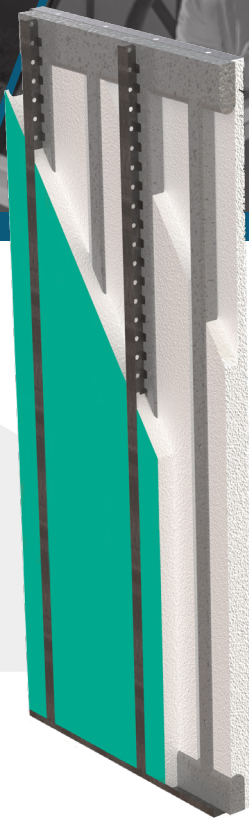

Bring a faster, better building strategy to the table. Fabricated off-site and delivered ready to assemble, HercuWall® is the panelized shell and demising wall system that eliminates costly and time-consuming steps. HercuWall is three times stronger than traditional wood framing and light enough to be carried by one installer. This results in a stronger, more energy-efficient and sustainable building solution.

Features & Benefits

- Faster construction that saves 2-3 months on projects
- Requires less labor compared to traditional construction methods
- Lowers construction costs while maintaining high quality
- Promotes green construction with energy-efficient and eco-friendly materials
- Enhances soundproofing for a more comfortable environment
